

PROBLEMS WE SOLVE

COMPREHENSIVE SUPPORT, CUSTOMIZED SOLUTIONS AND EXPERIENCED EXPERTS FOR CERTIFICATION PROCESSES

Isabellenhütte supports you in meeting the high certification requirements for energy meters in DC charging stations.

CHALLENGE

In the field of system development for DC charging stations, the requirements within a certification process are high. Harmonized standards for DC charging systems are still partly under development. Manufacturers must ensure that their products comply with future standards in order to guarantee interoperability and safety.

SOLUTION

As a pioneer of the first DC meter that complies with German calibration law, Isabellenhütte has extensive expertise in the certification process. We support you individually from the sample phase through system integration to series production. Individual customer adaptations at software level are possible at any time.

Contact us to find out more about how we can support your system development efficiently and successfully.

APPLICATION

DC wallboxes, DC charging stations, fast charging- and ultra fast charging stations, high power charging- and megawatt charging systems.
